EFFECTIVE AI UTILISATION IS A HIGHLY VALUABLE BUSINESS GROWTH TOOL

Upskilling in AI will help you understand the core theory behind its technology, alongside practical experience with current industry tools, enabling you to effectively integrate AI technology into your business and marketing strategies.

ACHIEVE ONLINE SUCCESS

AI helps businesses achieve online success by enabling personalised customer experiences, providing automated support, and optimising marketing strategies. Through advanced analytics and machine learning, companies can make smarter decisions, improve engagement, and increase operational efficiency in a highly competitive industry.

AI IS CONSTANTLY EVOLVING

AI is transforming marketing strategies with increasingly sophisticated tools and capabilities. Professionals must continually adapt in leveraging AI's potential to create more targeted, efficient, and innovative business solutions. Upskill to become an adaptable marketing expert who can harness AI technology to drive meaningful growth and have a competitive advantage over others.

AI IN MARKETING CAN RESULT IN:

SAVING SIGNIFICANT TIME ON ROUTINE TASKS

AI tools can dramatically reduce the hours spent on repetitive marketing work, allowing a greater focus on strategic and creative opportunities. Automation technologies can eliminate up to 80% of routine tasks, allowing you to redirect your energy towards high-value creative and strategic work.

INCREASED MARKETING EFFECTIVENESS

AI-powered tools provide data-driven insights that enhance marketing precision. By leveraging intelligent technologies, businesses can create more targeted, personalised experiences that significantly improve customer engagement and conversion rates.

IMPROVED COMPETITIVE ADVANTAGE

A robust AI strategy enables businesses to stay ahead of market trends, quickly adapt to changing consumer behaviors, and make more informed strategic decisions. This approach ensures your marketing remains agile and responsive in a dynamic business environment.

ENHANCED CONTENT CREATION

AI tools can help generate high-quality content across multiple formats, from text to graphics to audio and beyond, while maintaining brand authenticity and creative integrity. This allows for more efficient and innovative content production.

MORE STRATEGIC DECISION- MAKING

By automating data analysis and providing predictive insights, AI empowers marketers to make more informed, strategic choices that drive business growth and performance.

IN 7 WEEKS GAIN THE SKILLS TO CONFIDENTLY APPLY GENERATIVE AI IN MARKETING

YOUR KEY TAKEAWAYS FOR THIS COURSE:

1. You'll be able to utilise AI tools to support and improve the creation of digital marketing assets that align with a selected organisation's marketing strategy. You'll learn the importance of using specific and contextual prompts to get relevant and actionable outputs for written, visual, or audio content assets.
2. You'll become familiar with tools like ChatGPT, Claude AI, and Scalenut (and others) to create assets like blog posts, PPC ad copy, and visual images/videos that align with your chosen organisation's marketing strategy.
3. Leverage AI tools to develop and analyse marketing performance reports that inform an organisation's marketing strategy. Use AI tools like Perplexity, GetLiner, and Google Gemini to extract and summarise insights from datasets, like audience behaviour trends and campaign performance metrics.
4. You'll be able to prompt AI tools effectively to get accurate, relevant outputs, ensuring your findings fit real-world scenarios. You'll also refine your analysis by adapting reports to meet organisational/marketing goals.

By the end of the course, you'll gain a clear understanding of AI technology and hands-on experience with current industry tools like ChatGPT, Midjourney, and Canva AI. You'll learn how to effectively use these tools in your marketing work, plus earn an NZQA Level 5 accredited Certificate in AI Marketing Practice.

You'll use AI to:

- Create compelling text, video, and graphics while developing skills in writing effective prompts and critically assessing AI-generated work.
- Integrate tools smoothly into your marketing workflow to support content creation, research, and design while keeping your brand's unique voice.
- Automate data analysis and performance measurements that allow you to make more well-informed campaign decisions.
- Predict customer behaviour to spot trends and keep your marketing strategy ahead of the competition.
- Improve reporting and automate repetitive tasks, providing deeper insights into campaign results.
- Understand the ethical side of AI in marketing, learning how to use tools responsibly and in line with current regulations and best practices.

HOW DOES REMOTE LEARNING WORK?

Duration: 7 weeks

Delivery Mode: 100% online

Time Commitment: 10 hours per week

(4 hours directed learning including a 2-hour live class each week, with 6 hours self-directed).

Learning Expectations:

You'll be required to attend the live classes through our online learning system, where you'll need solid internet connection to access.

We'll release the pre-class work for you to complete. This is to be completed before the next live class the following week. For the first week, you'll gain access after the first live lecture. This includes quizzes and activities that you'll need to complete to help you confidently apply generative AI to various aspects of marketing over the 7 weeks. 6 hours self-directed learning can be done in your own time and will include working on your chosen asset (which doubles as your assessment submission to complete the course, completing readings and preparing for the live classes).
